TME 2104 / TMT/TMP 2654 Web Based System Development
Individual Assignment 3 (10%)
:: Due on 22 November 2019, 11.55pm ::

Topic covered:

1.   PHP Form

2.   SQL commands

Instruction:

1.   Re-use the HTML form with JavaScript validation in Assignment 2.

2.   Task A:

     a.   Write a PHP script "showFormData.php" to capture the user input data submitted from the HTML form (action attribute) and RE-DISPLAY in a web browser.

3.   Task B:

     a.   Use MySQL command prompt (CLI) in XAMPP to create ONE database "myDB" with TWO tables ("myTable1" and "myTable2") and populate each table with multiple records.

     b.   Copy and paste the SQL commands (and errors if any) in a text file named "myData.txt" and export the database "myDB" from XAMPP Export tab.

Submission to eLeap by 11.59pm, 22 November 2019:

1.   Follow the instruction above for the naming of files, tables and databases strictly.

2.   Zip the files for Task A and B before upload to Assignment 3 submission link in eLeap.
